

PROFILE SUMMARY

A management professional with an **analytical mindset**, experienced in **business process analysis, data analytics and process improvement** to drive **practical business insights**.

INTERNSHIP

Data Science Intern, Bajaj Finance Apr – Jun 2026

- Developed a machine learning framework to predict the recovery probability of deactivated Smart Soundbox devices using **45 merchant and operational variables**
- Built a representative synthetic dataset of **~2.5 lakh merchant records** to support model development and validation
- Evaluated **four machine learning models** and selected XGBoost for recovery prediction (**ROC-AUC: 0.765**)
- Designed a recovery prioritization framework where the **top 30% of merchants accounted for ~57% of recoverable devices**

ACADEMIC PROJECTS

- ERP Consulting & Industry 4.0 – AutoCare Spare Parts:** Analyzed **business processes** and designed an **Odoo ERP solution** covering **Order-to-Cash, Procure-to-Pay** and Warranty Management, integrating Sales, Purchase, Inventory and Accounting. Mapped **cross-functional workflows**, executed **end-to-end transactions** and tested GST-compliant processes, to improve **process visibility and control**, 2026
- Marketing & Retail Analytics – Nykaa Insight Decision Support System:** Developed a **team-based decision-support system** integrating sales, customer, marketing and inventory data **across 500 SKUs, 5,000 customers and 100 campaigns**. Built **24 KPIs** and **what-if analysis** to evaluate pricing, inventory and marketing scenarios and support **business decisions**, 2026
- Six Sigma Operations Improvement – Elevate Lounge Pizzeria:** Applied **Six Sigma and process analysis** to investigate order-to-delivery delays, identifying **kitchen layout and workstation movement as key bottlenecks**. Recommended process redesign and workstation alignment to **reduce operational delays, improve workflow and strengthen operational efficiency**, 2025
